Web Design & Development

Director, Design & Development

Aug. 2010 - Current

UniForge Inc.

Coded and debugged extensively in HTML5, CSS3 (and SASS), PHP, Javascript, and jQuery, with a focus on customizing CMSs for client usability.

Designed and coded elegant, user-centric responsive websites.

- Used Photoshop and Sketch to design with breakpoints in mind.
- Coded using Bootstrap, Foundation, and a self-built responsive framework.
- Ensured cross-browser and cross-platform responsive functionality.

Developed dozens of WordPress sites, including server setup, WordPress installation, crafting themes from scratch, and creating and integrating plugins.

Contributed to full project process, including client meetings, brainstorming, wireframe conception, brand and site design, and front-end/back-end development.

Established new processes to improve efficiency and teamwork.

- Introduced the use of SASS and Git as part of standard internal workflow.
- Researched and instituted the use of team communication and co-ordination applications, such as Slack and Trello.

Graphic Design

Director, Design & Development

Aug. 2010 - Current

UniForge Inc.

Used Adobe Illustrator, Photoshop, and InDesign to create designs with a focus on user experience and consistent branding.

- Developed brand identity for clients, with their customer-base and intended audience in mind.
- Trained Junior Developers and co-op students on creating accessible designs, and to develop a brand and user experience that was in accordance with the client's requirements.
- Created print-ready brochures, booklets, signs, menus, etc., using Adobe InDesign, including the use of typographic styles, colour profiles, layers, and master pages.
- Designed and converted a multitude of logos, icons, and illustrations in Adobe Illustrator.

Web Developer & Graphic Designer

Jul. 2007 - Aug. 2010

Creative Unity Ltd.

Project Management & Client Services

Director, Design & Development

Aug. 2010 - Current

UniForge Inc.

As Director, Design & Development, managed numerous projects and priorities for designers and developers company-wide.

- Managed a team of Junior Developers and co-op students working on design, content conversion, development, and debugging.
- Met with clients to discuss needs, objectives, and conversion goals, and provided insight and innovative solutions to meet their criteria.
- Lead QA efforts for work completed by all designers and developers.
- Trained students and junior staff on design and development processes.

Created documentation for clients, on how to use their WordPress sites.

As a Sales Service Manager, acted as a liaison between clients and internal departments.

- Coordinated design, pricing, scheduling and approvals between internal departments.
- Met with clients to establish system requirements, including business rules of ID systems.
- Provided customer service to clients in Caribbean, South America, and Oceania regions.
- Monitored production process, and prepared reports on product and project deliverables.
- Chaired Team Leaders' weekly meetings and updated Project Status Reports accordingly.
